

**Los Angeles County Homeless Initiative** 

## Community Listening Sessions Annual Funding Recommendations FY 2025-26

The Los Angeles County Homeless Initiative is holding a series of virtual community listening sessions to strengthen strategies for addressing and preventing homelessness and to inform our annual funding recommendations for homeless services and housing in fiscal year 2025-2026.

We'd like to hear from as many voices as possible and we ask you to participate in the listening session that best meets you or your organization's interests. If you are unable to attend one of the above listening sessions, please visit our <u>website</u> for additional information.
